PERSONAL PROJECTS

Job Portal (MERN STACK) (04/2022 - Present) ↗

- A Job Portal using React JS, Node JS, MongoDB, and Tailwind is a web application that allows employers to post job listings and job seekers to search and apply for jobs. The application has several features, including:
- Job posting: Employers can create an account and post job listings, including job descriptions, requirements, and application instructions.
- Job search: Job seekers can search for jobs based on keywords, location, and job type.

Zomato Clone - Food Delivery App Clone using React js (07/2022) ↗

- Restaurant listing: Users can view a list of restaurants and filter them based on location, cuisine, and price range.
- Restaurant details: Users can view restaurant details, including menu, ratings, reviews, and delivery options.
